

**PREMIUM ★★★ CERABOND SYSTEM**  
PRODUCTS WITH MAXIMUM LIFETIME

# PREMIUM ★★★ CERABOND SYSTEM

**+ Shorter work processes**  
Working times are substantially reduced through improved abrasiveness.

**Rough grinding wheel with and without „Comfort Start“.**

**+ Longer lifetime**  
The unique bond system prevents the premature break-out of the grain and leads to a long product lifetime.

**+ Enhanced abrasiveness**  
The self-sharpening ceramic grain in combination with our Cerabond bonding system offers maximum stock removal on the workpiece.

**TYROLIT Film**

The product film can be found on YouTube at [www.youtube.com/TYROLITgroup](http://www.youtube.com/TYROLITgroup)

Our self-sharpening ceramic abrasive is among the best that the technology currently has to offer. However, the best grain in the world is only of limited use if the quality of the bond is not as high. This is why TYROLIT developed the Cerabond system! Using this technology, we have succeeded in achieving an optimal combination of ceramic grain and bond structure. Thus it is possible to keep the abrasiveness and the lifetime of the cut-off wheel at the highest level. The Cerabond system prevents premature break-out of the grain and thus guarantees the full grinding power of the individual grains.

## Stock removal rate

## CERABOND SYSTEM

1. Before grinding. 2. With a normal bond it is not possible to thoroughly bind the hard and brittle grain. 3. The Cerabond technology enables optimal bonding of the ceramic grain.
