

TYROLIT Roofer's Cutting Wheel

The TYROLIT roofer's cutting wheel was specially developed for the wide-ranging roofing application scenarios and is suitable for cutting all common roofing materials – from concrete and clay roof tiles to fibre cement.

The ribbed cutting rim and the hardened steel core ensure minimum cutting pressure and clean, straight cuts throughout the life cycle of the wheel.

Advantages:

- + Universal use for all common roofing materials.
- + Ribbed cutting rim for minimal cutting pressure.
- + Ensures straight cuts and clean-cut edges.
- + No overheating, even in the case of high loads.
