Cake volume 2.4 litres

Clear, user-friendly control panel

Filter unit

Suction pump

The SPP400 filter press was specially developed for small construction sites and, due to its compact design, is the most mobile and easiest to use filter press on the market. Thanks to its low weight, patented air cushion

technology and trolley chassis, one-man operation is no problem.

With this filter press, TYROLIT enables concrete and stone slurry to be disposed of in an expert and

environmentally friendly way. The recycled water can be discharged into the sewers or reused without problem, and the residues (cakes) in the filter can be disposed of at low cost as building rubble.
